Mythware Classroom AP

Pivot of Wireless Interactive Teaching
Design for Classroom Management Software

Mobile device-based informationized teaching method is gradually recognized and accepted by majority of schools and Institutions. However, during the practical teaching process, the incidents such as mobile devices offline, screen broadcast pause and teaching material sluggish sharing still happen.

Thus, How to solve these problems?
Mythware Classroom Cloud AP is blockbuster launched.

Stable Classroom Interaction	Smooth Screen Broadcast	HD Network Movie Playing	High-speed Material Sharing
No Disconnection	No Lagging Time	Fully Synchronization	Fully Real-time

2.4G/5G

- 60 Mobile Devices Smooth Interaction
- Support 2.4GHz/5GHz Frequency Band
- Big Volume Teaching Materials Sharing
- Support Up to 3TB HDD Expansion
- 802.3af PoE or Local Power Supply

- This brochure is only for providing information; the contents could be changed during relevant products development process, Mythware has the ultimate power of interpretation.
- All the trademarks mentioned in this brochure are belongs to their owners.

Mythware Classroom AP
Pivot of Wireless Interactive Teaching

Excellent WiFi Performance

- Built-in High Gain 3x3 MIMO Antenna
  Satisfy the WiFi coverage requirements of various teaching environment.

2.4G/5G

- 60+ Mobile Devices Smooth Interaction
  Keep data accuracy during high-speed synchronized transmission .

60+

- Complete Data Security Mechanism
  Anthentication and encryption technologies such as WPA/WPA2, TKIP, AES.

Built-in Hard Disk Drive Expansion

- Uploaded big volume teaching contents could be directly downloaded by teacher in class.
- Or could be immediately pushed to the mobile devices of students such as tablets, mobile phones and PCs.

3TB

Build-in HDD Expansion

Industrial Level Design

- Continuous working in complex and diverse environment.
- Rotary Chuck Design : a more convenient installation method.
- Optimized internal structure satisfies the demands of low-noise and heat dissipation.

Wall Mounted

Ceiling Type

Mythware Classroom AP
Design for Classroom Management Software

Abundant Teaching Functions

- **Interactive Whiteboard, Group Discussion**
  Raise students' participation and learning enthusiasm.

- **Quiz, Response & Competition**
  Reflect the real-time teaching outcome for teacher to adjust the teaching process.

- **Student Sign-in, File Distribution and File Collection**
  Save teacher workload and boost class management efficiency.

Fluent Teaching Experience

- 802.11 ac Ethernet port, support the maximum wireless transmission rate is up to 1900Mbps.
- Perfect Collaboration with Mythware Classroom Management Software in wireless interactive teaching.

Non-time Delay Screen Broadcasting

Fully Synchronized Net Movie Playing

Real-time File Distribution/Collection
